Dear Esteemed Members,

The Organization of Islamic Cooperation Ombudsman Association (OICOA) conducted 11th Board of Directors Meeting in the enchanting city of Marrakesh, Morocco. As the Chief Ombudsman of the Republic of Türkiye and the President of the OICOA, I am thankful to all participants for their participation.

As a President of OICOA, I condemn the heinous assassination of Hamas Leader Mr. Ismail Haniyeh. The Palestinian people should be protected and their right to life must be protected by the global human rights organisations.

These gatherings transcend mere meetings; they represent a confluence of shared visions dedicated to fostering the esteemed principles of Ombudsman ship on a global stage. Our collective ambition is to uphold justice, fairness, accountability, and the protection of human rights. I eagerly anticipate the pivotal discussions on expanding OICOA's membership, echoing our joint commitment to enhancing its impact and reach. for OICOA, paving the way for a global outreach resonating with the core principles of justice and equity.

Seref MALKOC
(Chief Ombudsman of
the Republic of Turkey)
President OICOA

Message From the Secretary General

I am delighted to share the August issue of the OICOA e-Newsletter, which embodies the core principle of accountability rooted in the Islamic concept.

At OICOA, we are committed to take action against maladministration, protect human rights, and ultimately promote good governance, believing that a peaceful society contributes to a peaceful world.

The participation of OICOA board members in the 11th Board of Directors Meeting, held in the historic city of Marrakesh, Morocco, demonstrates our continuous efforts to promote better governance among Islamic countries. We are grateful to His Excellency Mohamed BENALILOU, Mediator of the Kingdom of Morocco, and a valued member of the OICOA board, for generously hosting the OICOA meeting and extending memorable hospitality.

I express my deep concern over the ongoing brutal attacks and killings of innocent Palestinian Muslims since 7th October 2023. The devastating toll includes 39,173 lives lost and 79,061 injured in Israel's war on Gaza.

OICOA urges the UN and human rights organizations to bring all perpetrators of this heinous act of genocide to justice. An immediate ceasefire is imperative, and all international NGOs should be allowed to work towards rescue, relief, and rehabilitation efforts for the affected.

As Secretary General of OIC Ombudsman, I offer my condolences to the Palestinian people over the sad demise of Mr. Ismail Haniyeh and condemn his assassination.

I trust that with the support of member countries, we can strengthen and fortify our association. May our actions be guided by the principles of justice, righteousness, and peace.

Training Session

OICOA Training Session on 'Ways to Access Information Regarding Maladministration by Public Functionaries'.

OICOA training session, organized by the OICOA Secretariat, provided an in-depth exploration of the evolving landscape of the Right to Information (RTI) and its importance in today's day and age. Over 100 participants from OICOA Member Institutions, the Asian Ombudsman Association (AOA), and the Forum of Pakistan Ombudsman (FPO) joined this training session in-person and online. Presided over by Dr. Arslan Subuctageen, Director General Trainings of the FPO, the session began with a focus on the complexities of obtaining information from public officials, particularly in cases of maladministration.

The keynote speaker, Mr. Mukhtar Ahmed Ali, Director of the Centre for Peace Initiative & Development (CPID), who is a seasoned expert

in governance, democratic development, and human rights with a career spanning over two decades. Mr. Mukhtar offered a historical perspective on RTI, tracing its evolution from the 1766 Freedom of Press Act in Sweden to its current status as a fundamental component of democratic governance worldwide. He emphasized, "RTI is not just a right; it is a duty for public bodies to actively disseminate information,

especially those that manage public funds." He critically examined Pakistan's RTI framework, particularly the Right of Access to Information Act of 2017. While acknowledging the law's broad scope, he highlighted significant implementation challenges, including resource constraints and a deep-rooted culture of secrecy. Despite these hurdles, Mr. Mukhtar expressed optimism, noting that "transparency is not merely a legal obligation; it is the cornerstone of good governance." During the interactive Q&A session, participants raised concerns about resistance from public officials and the complexities of digital record management.

Addressing these issues, Mr. Mukhtar advocated for a cultural shift within public institutions, suggesting, "Transparency should be seen not as a threat but as a fundamental responsibility." He also recommended a phased approach to digital archiving, starting with critical records and ensuring secure, centralized databases. On the enforcement of RTI laws, particularly in cases involving powerful entities, Mr. Mukhtar stressed the importance of independent information commissions and the role of civil society and the media. He remarked, "The strength of RTI lies not just in the law itself but in the collective will of society to uphold it."

At the end of the session, Dr. Arslan Subuctageen and Executive Secretary of OICOA, Almas Ali Jovindah expressed their appreciation for Mr. Mukhtar's contributions, lauding his ability to make complex issues accessible. They reiterated that the fight for transparency is both a legal and cultural battle, essential for building trust in governance. It will be prudent to state that the 4th OICOA training session provided valuable insights to its participants in the ongoing pursuit of transparency and accountability within governance frameworks. The insights shared by Mr. Mukhtar Ahmed Ali, not only highlighted the challenges ahead but also offered practical solutions and the sense of urgency in our commitment to embedding the principles of the Right to Information in everyday governance.

UN SECURITY COUNCIL RESOLUTIONS ARE BINDING

FAILURE TO IMPLEMENT THE RESOLUTIONS REQUIRES INTERNATIONAL SANCTIONS

Since October 7, in attacks by Israeli security forces, 32 thousand 845 people, more than 70 percent of whom were women and children, lost their lives, 75 thousand 392 people were injured, settlements were left uninhabitable, and 1.9 million people, corresponding to 85 percent of the population of Gaza, were displaced.

The special report titled “*Gaza: From The World's Largest Open-Air Prison To The World's Largest Children's Cemetery*”¹, prepared by the Ombudsman Institution of Türkiye, determined that **Israel committed war, genocide, and crimes against humanity as addressed in the Convention on the Prevention and Punishment of the Crime of Genocide and the 4th Geneva Convention.**

Acts aiming to completely wipe off the 2.2 million people living in Gaza or expel them from their homelands by killing and inflicting serious physical and mental harm on them, require the perpetrators of this crime to put on trial in front of the international criminal courts.

In that matter, Israel did not comply with the ceasefire Resolutions adopted by the UN General Assembly by an overwhelming majority. Israel also insists on not complying with the UN Security Council Resolutions. As it is known, on 22 December 2023, the UN Security Council adopted a Resolution emphasizing the urgent need to provide more humanitarian aid to the civilian population. As Defense Minister Gallant stated “*There will be no electricity, no food, no water, no fuel. We are fighting against human animals*” on 9 October 2023, Israel has not fulfilled the requirements of the Resolution. Using hunger as a weapon, Israel has killed 200 humanitarian aid volunteers in the last six months, including the recent killings of 7 members of the World Central Kitchen. **Since Israel does not allow aid to be delivered especially to Northern Gaza, people, particularly babies, children and the elderly, are dying of hunger and thirst today, just as it did back in 1945.** UN reports and hospital records show that with each passing day the Security Council Resolution is not complied with, the number of deaths from starvation, entirely caused by humans, increases dramatically.

On 25 March 2024, at the end of the 6th month of Israeli attacks, the UN Security Council passed a Resolution demanding a ceasefire. The Resolution, adopted by the 15-member Security Council with 14 “Yes” votes and 1 abstention, requested an immediate ceasefire that would be respected by all parties for the remainder of the month of Ramadan and that “will lead to a permanent and sustainable ceasefire”.

Despite this, Israel's attacks in Gaza continued increasingly. In face of the Resolution regarding a ceasefire, Israel has been bombing Rafah City, where 1.5 million people, most of whom have been displaced three times, are trapped into an area of 64 km for the last six months. Israel also besieged the Al-Shifa Hospital again, where the elderly and children in Northern Gaza had taken shelter, and **executed 400 unarmed people, including children and women**. After Israeli forces left the Al-Shifa Hospital, bodies run over by a bulldozer were found in the garden of the hospital. Additionally, the fate of hundreds of healthcare workers who have been arrested is unknown.

In his statement after the UN Security Council Resolution, the Secretary-General of the United Nations, Mr. António Guterres, said, "This Resolution must be implemented. Failure would be unforgivable." On the other hand, the Permanent Representative of the USA to the UN stated that the Resolution, which they abstained from, is not binding. **This situation is equivalent to supporting the war, genocide and crimes against humanity that has been committed today.** If the permanent members abstain, the Security Council can adopt a Resolution, and the failure of any of the permanent members of the Security Council to use their veto right makes the execution of the Resolution essential.

According to Article 25 of the UN Charter, UN members are required to accept and implement Security Council Resolutions. According to Article 24 of the UN Charter, the primary duty of the UN Security Council is to maintain international peace and security by acting quickly and effectively on behalf of UN members. **The UN Security Council has the authority to implement economic, diplomatic and military measures in cases where disputes that may endanger international peace and security cannot be resolved by peaceful means.**

Israeli government must immediately fulfill the requirements of the binding UN Security Council Resolution. **All sanctions stipulated in the UN Charter must be imposed against the Israeli administration by the UN Security Council, for the immediate implementation of UN Resolutions.** In order for the humanitarian disaster in Gaza to end immediately and permanently, the international community must adopt a common stance against Israel.

Condolence Over Assassination of Ismail Haniyeh by GIO Iran Honourable Justice Dr. Khodaeian

The condolence message of the President of the General Inspection Organization of the Islamic Republic of Iran following the martyrdom of Ismail Haniyeh;

بسم رب الشهداء و الصديقين
ولا تحسبن الذين قُتلوا في سبيل الله أمواتاً بل أحياء عند ربهم يرزقون

I extend my condolences for the martyrdom of the Palestinian Islamic Resistance Movement, Ismail Haniya, to the Islamic Ummah, the great Palestinian nation, the Hamas movement, and all the nations and countries.

This cowardly assassination made the helplessness of the fake and child-killing Zionist regime and the ugly face of global arrogance more visible to the public opinion and strengthened the path of resistance for the liberation of holly Quds. Undoubtedly, the pure blood of this high-ranking martyr will record another stain on the record of the crimes of the Zionist usurper regime, and let the enemies of Islam and the Islamic Ummah know that the blood of the Palestinian martyrs and the axis of resistance, especially Martyr Ismail Haniyeh, will bring greater cohesion and unity to the resistance groups in the liberation of holly Quds. I ask Allah Almighty for the royal souls of those pious and faithful people and their companions who were martyred in this incident.

President of the General Inspection Organization of the Islamic Republic of IRAN on the Sidelines of the Funeral Ceremony of Martyr Ismail Haniyeh Condemned Murder of Ismail Haniyeh

Justice Dr. Khodaeian, the President of the General Inspection Organization of the Islamic Republic of IRAN, on the sidelines of the funeral ceremony of Martyr Ismail Haniyeh in Tehran, told reporters that this cowardly assassination showed the helplessness of the child-killing Zionist regime and the ugly face of global arrogance in the eyes of the public. During all these years of fighting against the occupation regime of Quds, Haniyeh was present in the field with insight and commitment, and he sacrificed his closest family members for the great goal of liberating holly Quds.

He continued: The global arrogance and the ostracized Zionist regime should know that with these heinous actions, the determination of the free nations and the resistance axis countries will be strengthened to take the final steps towards the liberation of holly Quds.

The President of GIO pointed to the desperation of the hated Zionist regime against the desperate defense of the axis of resistance, and emphasized: Now this child-killing regime is facing defeat on the battlefield and has not achieved its evil goals, and its nature is a disgrace to the free nations of the world and is hated by public opinion. It has been committed to blind assassinations and against all international laws. There is no doubt that these crimes will have no result other than the greater unity of the fighting people of Palestine and the resistance front and the free people of the world until the complete disappearance of this fake regime.

Federal Tax Ombudsman of Pakistan

Transformation in Performance of the Tax Ombudsman's Institution

In a significant stride towards enhancing taxpayer's rights and fairness in tax administration, the Office of the Tax Ombudsman has experienced a remarkable transformation under the leadership of Dr. Asif Mahmood Jah, the Hon'ble Federal Tax Ombudsman. Mr. Khalid Javed (Registrar to FTO) recently spoke to the media team, highlighting pivotal developments and achievements of the Federal Tax Ombudsman's office.

Established in the year 2000, the Federal Tax Ombudsman's office initially faced challenges with tepid responses and a limited number of complaints. However, the appointment of a seasoned Tax expert as Ombudsman sparked a notable turnaround. Under this new leadership, there has been a resolution of complaints. Notably, Section 33, of FTO ordinance designed for informal resolutions of disputes, has witnessed a significant rise in its utilization by adopting an all-encompassing approach in addressing taxpayer issues promptly and justly.

In a recent media briefing, Mr. Khalid Javed, Registrar to the FTO, highlighted the remarkable progress made under Dr. Jah's leadership. According to the six-month report, the FTO Secretariat received 5947 complaints, of which 4928 have been disposed of. This is a significant improvement compared to 2023, where 3878 complaints were received, and 3923 were disposed of in the corresponding period.

The intervention of the FTO has been particularly impactful in expediting the settlement of delayed refunds. Over the last six months, a total of Rs 17,317.74 million has been refunded to aggrieved taxpayers, a significant increase from the Rs 6,316.5 million refunded in 2023. This transformation in the performance of the Tax Ombudsman's institution reflects a commitment to upholding taxpayer's rights and improving the efficiency of tax administration, setting a new standard for responsiveness and fairness in the processes.

Dr. Jah, the Hon'ble Federal Tax Ombudsman, has adopted proactive measures by initiating all time high number of own-motion investigations. These investigations target systemic maladministration within federal tax administration, underscoring a strong commitment to rectify underlying issues affecting taxpayers at larger scale.

Central to this success is the expertise of a dedicated team of seasoned advisors who have played a crucial role in conducting extensive outreach activities. These efforts are aimed at educating taxpayers about their rights and the services provided by the Tax Ombudsman Secretariat thereby fostering greater awareness, trust, and confidence among the taxpayers.

The Honorable FTO has been instrumental in spearheading initiatives that enhance taxpayer confidence in the institution. By actively addressing concerns and advocating for fairness in tax administration, the Tax Ombudsman institution has firmly established itself as a reliable premier organization for redressing grievances and ensuring equitable treatment.

A recent landmark decision exemplifies the Advisors commitment to duty and resolution of tax hardships. Acting on several complaints under Section 10(1) of the Federal Tax Ombudsman

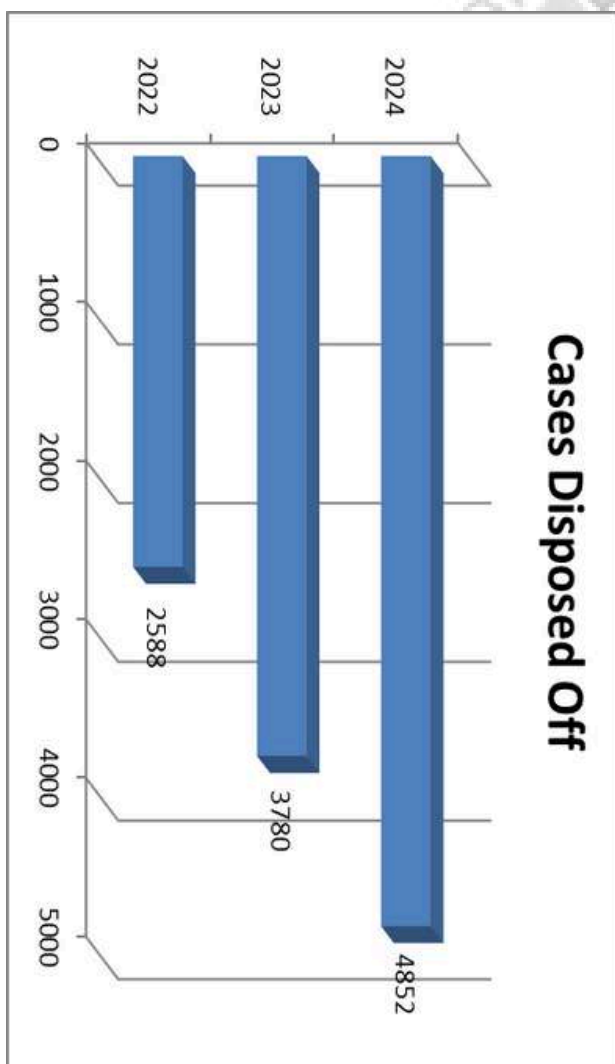

Ordinance, the Hon'ble FTO issued recommendations to the Federal Board of Revenue (FBR) regarding excessive withholding tax deductions made by the Punjab Council of Arts and Culture. The FTO's findings concluded that these deductions were unjustified as per departmental stance i-e u/s 156 of the ordinance . The recommendations ensured that tax deductions align with the appropriate sections of the Income Tax Ordinance, 2001 i-e section 153 (1) (b) and also includes instructions for withholding agents to refrain from withholding taxes in cases below the threshold of Rs 30,000 thereby alleviating financial burdens on low-income individuals.

These developments underline a growing trust in the Tax Ombudsman's capability to protect taxpayers rights and promote fair tax practices. The FTO Secretariat enhanced performance and expanded mandate underscore its evolving role as a pivotal institution overseeing federal tax practices, ensuring transparency, accountability, and fairness in tax administration.

OICOA formally initiated Internship Exchange Program between Pakistan and Morocco

Tayyaba Munir, the intern who was hosted by the Moroccan Ombudsman Institution expresses her experience in this article.

"The people of Morocco are more royal than the royalty itself" is a phrase which came to my mind when I was witnessing hospitality in every corner of Morocco. On the occasion of Fête du Trône (Throne Day), when His Majesty the King Mohammed VI formally ascended to the throne, I feel a special association with it just like the people of Morocco. My heart rejoices with the Moroccans on this day to celebrate with them the accession of a monarch who is truly devoted to its subjects, a monarch whose love drips from citizens of the kingdom, a monarch whose compassion makes his subjects feel regal. I had this wonderful opportunity to represent Pakistan and the Federal Tax Ombudsman Secretariat at L'Institution du Médiateur du Royaume (IMR) in Rabat, Morocco from 1 July 2024 till 21 July 2024. This opportunity was created under the umbrella of OIC Ombudsman Association and was the initiative of Secretary General OICOA, Honorable Federal Tax Ombudsman of Pakistan Dr. Asif Jah. In this initiative a significant role was also played by Executive Secretary OICOA, Mr. Almas Jovindah who considers it his passion to empower not only the OICOA members but also the youth. The proposal for this Exchange Program was put forward by them in the 10th OICOA Board Meeting which was approved by all the Board Members and thus opened the mighty gates of a scintillating opportunity for the youth of all OICOA member countries. In supporting this venture, the OICOA Board Member, Mediator of Morocco, Mr. Mohamed Bendillou also actively participated which led to signing of an MoU between IMR and FTO in June 2024 during 11th OICOA Board Meeting which took place in Marrakech. Thus, due to the contribution and enthusiasm of all these honorable personalities I was honored to be among the first batch of this OICOA Exchange Program which took place in July 2024. Now coming towards my experience in Morocco, I would like to share the first few seconds when I entered the territory of Morocco and I landed at the Mohammed V International Airport in the famous Casablanca. The brilliant red flag which adorned every road, every street, every building of Morocco was pacifying for me in the same way the red soil of the country which I got to witness from the window of the plane. I was clueless about the attitude of the locals, however when the officials from the IMR received me I felt a bit at ease. I still remember the first few words they told me that, "It is your home, so feel at home", which was taken by me as a formal statement at that time. But what I didn't know was the fact that after spending these three weeks I will feel as if Rabat really is my home. During this experience, I was not only able to observe the concept of institutional mediation with all its intricacies but also had the opportunity to engage with the citizens, both within the IMR or the general public. If I have to define an average Moroccan citizen in one sentence then without any second thought I would say, "a quintessential friend with a wonderful smile and a heart of gold". It will seem to be an exaggeration until one has first hand experience of interacting with the locals on the roads of Morocco which in itself is a delight for the eyes. The Medinas of Morocco are world famous maybe for their aesthetic appeal but for me they are much more than that. The people you meet in every shop will leave a long lasting impression on you not only by their ease of communication but also by the way they welcome you in their country, with open arms and making you feel like one of them. Now coming towards the food I had in Morocco, I would not hesitate to say that they not only have big hearts but also have big portion sizes! As the food was always too much for me, it allowed me to save some for the beautiful cats which inhabit the streets of Morocco. The way Moroccans treat animals is what I have always idealized to see: cardboard boxes by the doors of every shop and home, cat food placed nicely in small pots with water. This is not the end, as you will also see some stray cats who got injured somehow with small bandages and fresh dressing everyday! This is Morocco, this is how Moroccans are, this is how they make any foreigner feel a Moroccan at heart.
